*For filler tower, customer should provide these custom dimensions:

| | Volume [m ³] | Discharge flange height [m] |
|------------|--------------------------|-----------------------------|
| Upper Silo | | |
| Lower Silo | | |

Specifications

Standard material steel 1.0037 .
Diameter 3.2m cement and silica and 2.4m for filler tower.
Capacities are given at Cement bulk density 1350 kg/m³.

SPECIFICATIONS MAY CHANGE WITHOUT PRIOR NOTICE ACCORDING TO DESIGN.

Applications

Concrete plants.
Asphalt plants.
Mineral processing plants.
Any Process with bulk materials grainsize range (5 ~ 250 μm).
